Rules Corner

Penalty Area Rules:

Your ball is in the Penalty Area if any part of the ball touches, is on, or is inside the margin of the area. No free relief from immovable obstructions such as sprinkler boxes, bridges or concrete pavement (Rule 16.1a(2)) is allowed for obstructions inside the penalty area if your ball is in the penalty area. You may choose to play it as it lies or take the penalty options available under Rule 17.2a (1). For a CWGC example, consider the pond around the 8th green. The concrete footing around the pond is in the Penalty Area. If your ball comes to rest on the green side of the pond and is touching the concrete footing then it is in the Penalty Area. No Free Relief is allowed. If you're lucky enough that your ball is outside the penalty area then the concrete curbing is an immovable obstruction and Free Relief is allowed if the curbing interferes with your stance or swing. Loose impediments such as unattached natural objects (e.g. leaves, twigs) and Movable Obstructions such as red or yellow stakes defining the penalty area can be moved whether your ball is inside or outside the penalty area. If your ball moves when moving the loose impediment this results in a one- stroke penalty and the ball must be replaced. If your ball moves when moving a Movable Obstruction there isn't a penalty. Simply move the ball back to its original position.

SUNDAY FUNDAY

Starting January of 2026 the sign-up date for Sunday Funday will be changing.

The sign-up date will be two weeks before a given playdate at 5:00pm. The payment due date will be due one week prior to the playdate.

Due to the long waitlists if payment is not received by the due date the Sunday Funday Committee will DROP you from the list. Don't let that happen! Make your payment once you know you are a confirmed participant.

From the Prez.....

We have approached that time of year when the golf course has its necessary aeration. I was thinking of all those people that keep the CWGC in play. The grounds crew, the pro shop, the cart barn, starters and marshalls without which we could hardly play sweeps each week and our monthly Funday Sundays. Thanks to all of you!

Recently I heard someone complain about being corrected on their score on a hole during sweeps. Yes, sometimes you feel defensive when a near stranger tells you you might be wrong but really you should be thankful that someone is looking out for you and the rest of the playing field. One stroke can make a difference in the payouts for sweeps winners.

Shadows are getting long, the mornings darker and its a little cooler, all reminders that we are approaching the holiday time of year. There will be no sweeps the Tuesday before Thanksgiving, the Tuesday before Christmas and the Tuesday before New Years at the request of the Coronado Rec.

**Happy Halloween
Karen**
